

Vendor Master Services Agreement

ARTICLE I: Scope of Services and Performance

Paragraph 1: This Master Services Agreement is entered into by Acme Services Corp (Vendor) and Global Corp. Vendor agrees to provide cloud-based infrastructure optimization and technical maintenance operations.

Paragraph 2: Vendor agrees to maintain server uptime SLAs of 99.9% measured on a monthly basis, excluding planned maintenance windows communicated in writing at least forty-eight hours prior.

ARTICLE II: Privacy and Data Protection Controls

Paragraph 1: Vendor shall have access to customer database tables for system diagnostics. Vendor will ensure standard password protection guidelines are followed to secure access credentials.

Paragraph 2: In the event of a security breach or system compromise, Vendor agrees to conduct an internal review and notify the customer within fifteen (15) business days after resolving the incident.

ARTICLE III: Data Storage and Term Policies

Paragraph 1: The term of this agreement shall run for five years. Vendor reserves the right to retain transaction records, database indexes, and logs indefinitely to optimize operational machine learning models.

Paragraph 2: Following termination, Customer may request data retrieval. Vendor will remove customer configurations from active directories within ninety (90) calendar days.
